

In an emergency, every second matters

Alyssa's Law has now been enacted in Washington and Oregon, joining Utah in adopting this life-saving legislation. Passed in all three states with significant bipartisan support, the law requires and funds the installation of panic alert systems in all public schools to enable faster emergency response.

Alyssa's Law Expands to Washington and Oregon

Alyssa's Law has now been enacted in Washington and Oregon, joining Utah in adopting this critical, life-saving legislation. Backed by strong bipartisan support, the law mandates and funds the implementation of panic alert systems in all public schools, enabling faster, more effective emergency response to protect students and staff.

Key Facts about Alyssa's Law

- Named for Alyssa Alhadeff, a 14-year-old victim of the 2018 Parkland school shooting.
- Goal: Speed up emergency response by enabling staff to discreetly alert law enforcement.
- Mandate: Requires schools to install silent panic alert systems connected to police.

We are a Motorola Solutions Ecosystem Solutions Partner

By working with us, you have direct access to a Motorola Ecosystem Solutions Partner who understands Motorola's safety and security ecosystem from end-to-end and can serve as a single, local point of contact for support across your entire ecosystem.

As a Ecosystem Partner, we can serve as your trusted advisor who has extensive experience and knowledge to help develop your technology ecosystem roadmap based on your organization's unique budget, pace and needs.

Day Wireless is also the foremost expert in First Responder Radio Amplification Systems throughout the United States.

Create a nurturing learning environment by bringing together technology

Keeping our schools safe and our students focused on learning have become top priorities for teachers, parents, and communities nationwide. That's because threats to school safety and security continue to rise. Today's staff and teachers are not only responding to everyday incidents, such as hallway altercations or minor health situations, but also critical situations.

Safe Technologies from the cafeteria to the parking lots:

- Panic buttons to empower faculty and staff to get help instantly with the push of a button
- Video security to provide visibility across vast areas to identify anomalies and enable 24/7 situational awareness
- Access control to secure entry points and automatically alert when a door is propped open or breached
- AI-powered video analytics to identify banned individuals, vehicle license plates, weapons or unusual activity
- Mass notifications via text, email and voice to notify the right people with the right information at the right time
- Gunshot, vape, temperature and chemical gas detection sensors that immediately alert staff

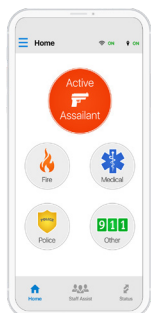

The entire ecosystem of safety and security technologies work together to provide a safer environment for students, staff and visitors.

Discover the technology that helps your school tackle everyday and extreme challenges and turn them into positive outcomes

From inspiration to graduation, formals to finals, safer schools help teachers inspire and students thrive. Motorola's safety and security ecosystem helps nurture the next generation of thinkers by bringing together the technologies and solutions you need to detect, analyze, communicate and manage. Because the only thing students should have to worry about is their next exam.

Key ecosystem components we recommend for safer schools

Rave Panic Button

Empower school staff to get immediate help and instantly provide 9-1-1 with incident details, floor plans and other key facility data. Appropriate personnel can also follow up with everyone on-site with next steps and conduct status checks.

- Faster response times
- Improve situational awareness
- Streamline communications
- Easy to use silent panic alarms

HALO Smart Sensors

Monitors air quality, detects vaping and sound issues for your building and prevents student vaping while capturing comprehensive health and safety awareness for your school.

- Detection without visuals
- High detection accuracy
- Detection notifications
- In use by over 6,000 schools

Avigilon Video Security & Access Control

Strengthen safety and security with integrated school campus video security and access control systems built to secure vulnerable areas and provide frictionless access. Faster response times.

- Complete situational awareness
- Cloud versatility
- Driven by AI
- Manage from anywhere

MOTOTRBO Radios

Communications to instantly and reliably connect your security, administration, bus drivers and staff – so you and your team are always aware. Ensure your team can hear and be heard, loud and clear, across campus.

- Durable and easy to use
- Pristine audio quality
- Long battery life
- Full multimedia and app capabilities

Safe School Design Doesn't Equate to Safe Public Safety Communication

Wireless coverage on campus is becoming a need to have, not a nice to have with the enforcement of fire codes. McIntosh has solutions that can solve coverage and capacity challenges for K-12 school campuses.

Day's solutions meet the need for complete, clear, reliable coverage throughout the campus, including classrooms, underground areas, and parking structures. Students, faculty, security personnel, visitors, and first responders can stay connected with our wireless solutions. We offer a fire code-compliant portfolio of innovative Public Safety DAS proven solutions to make schools safer for first responders and deliver mission-critical wireless service.

Contact us today to learn how we can help your school elevate safety and communication with Motorola's safety and security ecosystem.

#1 Priority of Schools

Protecting staff,
students and visitors
with safety features

Take your school's safety to the next level

It's time to rethink what safety can do — driving efficiencies, bolstering performance and helping you deliver a secure and supportive school environment for children to learn. By bringing together the technologies and solutions you need to detect, analyze, communicate and respond.

Day Wireless is a Motorola Solutions' Ecosystem Solutions Partner and can help develop and deploy a fully integrated safe technology ecosystem to help you build a safer school, so you can ensure your students, staff and visitors are safe.
